

The Hidden Threat: Cybersecurity in Water Treatment

Set to premiere on **October 13, 2023**, Baker Donelson's own **Justin Daniels**, an esteemed attorney specializing in corporate M&A and tech transactions, delves into the critical realm of cybersecurity within the water treatment industry.

Water treatment is not just a crucial element of our infrastructure; it's the very foundation of clean, safe drinking water for our communities. However, this vital sector faces an ever-growing threat - cyberattacks. Hackers targeting water treatment facilities could jeopardize the well-being of entire communities. This is not a hypothetical scenario; it's an alarming reality. In this episode, Justin Daniels emphasizes the pressing need for water treaters to scale up on knowledge and proactively integrate cybersecurity measures.

As Justin puts it, "Water treatment is on the forefront of concern from a cybersecurity perspective because it can have such widespread and significant consequences."

Here's why you can't afford to miss this episode:

- Learn how to protect sensitive data in water treatment.
- Discover strategies to safeguard your customers and communities from cyber threats.
- Stay informed about government regulations related to cybersecurity.
- Cultivate helpful cybersecurity habits and a proactive mindset.
- Explore the impact of artificial intelligence on cybersecurity.
- Gain insights into scrutinizing and securing your technology ecosystem.
- Get immediate actions to enhance the safety of your phone usage.

This episode isn't just informative; it's essential. Let's lead the charge in embracing cybersecurity. Listen to Daniel's podcast episode on October 13, 2023 by visiting scalinguph2o.com/333 or tune in to Scaling UP! H2O on your favorite podcast platform.

About Baker Donelson

For over a century, Baker Donelson has earned a stellar reputation for delivering exceptional results to clients across the nation and worldwide. What sets Baker Donelson apart is not just the legal services provided but the distinctive manner in which they are delivered.
