

Ripple Effect: How Utah's Water Strategies Impact Us All

ON THE SCALING UP! H2O PODCAST

Scaling UP! H2O Podcast Explores Utah's Water Strategies with Esteemed Water Attorney Emily E. Lewis

In an insightful episode airing on **Friday, January 19, 2024**, the Scaling UP! H2O podcast delves into the intricate world of water management with esteemed water attorney **Emily E. Lewis**. Emily shares her wealth of expertise, garnered from advising a diverse clientele, including individual water right owners, municipalities, and mining companies. As the **Utah Water Banking Project** Manager and host of the **Ripple Effect** podcast, Emily brings a unique perspective that transcends the confines of Utah, offering insights that resonate with water professionals nationwide.

Delve into the future of water management as Emily discusses regulations, permits, and laws related to groundwater and water access. No need for legal jargon; Emily breaks down the role of water attorneys, offering practical insights into water laws, discharge and runoff permits, and the delicate balance between water quality and quantity.

Water management isn't just theory; Emily addresses the real challenges you, as water treaters, face daily – from increasing water demands and population growth to the pressing need for innovative water management strategies. Gain the tools to have meaningful conversations with customers, stay abreast of local water legislation, and empower yourself to contribute when water laws are on the table in your state.

SCALE UP YOUR KNOWLEDGE

The episode offers a unique opportunity to learn from Utah's century-long water management history, addressing the challenges faced by the Great Salt Lake and initiatives to increase lake levels. Emily delves into collaborative efforts between industrial water treatment teams and legal teams, offering a roadmap to shape effective water policies.

"With water, everybody loses or everybody wins," shares Emily E. Lewis, emphasizing the collective responsibility in water management.

"The reality is that we are so much stronger when we work together on these problems," adds Emily, highlighting the collaborative ecosystem built around water in Utah.

To catch this insightful episode, listeners can tune in to the Scaling UP! H2O podcast on **Friday, January 19, 2024**, available on all major podcast platforms or by visiting scalinguph2o.com.
