

# Steam Boilers: Essential Checks, Part 1

ON THE SCALING UP! H2O PODCAST

## Want to know why your Boiler isn't performing at its best? If so, tune in to this Game-Changing Two-Part Series with AquaChem's Industry Expert Barry Higgins

Scaling UP! H2O, the authoritative voice in water treatment podcasts, is thrilled to unveil an exclusive two-part series featuring the industry luminary, Barry Higgins, from AquaChem. In this groundbreaking series, Barry meticulously demystifies the intricacies of boilers, providing indispensable insights for professionals dedicated to mastering boiler treatment.

### Part 1 - Essential Boiler Checks: A Blueprint for Success

Barry Higgins, armed with over four decades of technical expertise, graces the Scaling UP! H2O podcast to navigate water treatment professionals through the quintessential aspects of boiler treatment. In Part 1, Barry delves into the indispensable checklist that every professional needs for adept boiler management.

### Key Episode Features:

- In-depth insights into water treatment, encompassing pretreatment, feed water samples, condensate samples, and the pivotal role of steam traps.
- A sweeping comparison of boiler standards between the US and the UK, offering a global perspective on best practices and regulatory nuances.
- Expert solutions for common issues such as softener malfunctions, steam trap leaks, and optimal boiler maintenance during low periods and sudden demand spikes.

Barry, with unparalleled generosity, shares his wealth of expertise, providing actionable takeaways that water treaters and industry professionals can seamlessly integrate into their daily operations.

## Elevate Your Grasp of Industrial Water Treatment

Prepare for an episode brimming with knowledge, unraveling the intricacies of boilers and delivering invaluable insights for water treaters and industry professionals. Barry's seasoned experience ensures a treasure trove of information for listeners aiming to elevate their understanding of industrial water treatment.
