

Unlocking Legionella Solutions: Perspectives on Regulations and Best Practices

ON THE SCALING UP! H2O PODCAST

Dive into the differences and similarities in Legionella control practices and regulations between the United States and the United Kingdom.

Water professionals and enthusiasts eager to deepen their expertise in Legionella management are invited to mark their calendars for Friday, June 28, 2024, when the Scaling UP! H2O podcast releases a highly anticipated episode featuring **Lee Bainbrigge**, Chief Sales and Marketing Officer of **SMS Environmental Ltd**. Lee Bainbrigge, a respected authority in water treatment and Legionella control, brings decades of experience and insights to the discussion.

In this enlightening episode hosted by Trace Blackmore, Lee Bainbrigge explores critical aspects of Legionella management, offering invaluable perspectives that are essential for anyone involved in water safety and compliance. Here are three key takeaways from the episode:

- 1. Comparative Insights:** Lee Bainbrigge provides a detailed comparison of Legionella control practices between the United States and the United Kingdom. He highlights the strengths and challenges of each regulatory approach, empowering listeners to adapt best practices to their local contexts.
- 2. Regulatory Expertise:** With a deep understanding of legislative frameworks, Lee Bainbrigge discusses the nuances of crafting effective Legionella legislation. He shares practical advice on navigating regulatory requirements and ensuring compliance, drawing on his extensive industry knowledge.
- 3. Technological Innovations:** Lee Bainbrigge sheds light on the impact of technological advancements on Legionella management. From novel systems like heat pumps to IoT-enabled monitoring solutions, he discusses how these innovations are reshaping strategies for preventing Legionella outbreaks and maintaining water quality.

SCALE UP YOUR KNOWLEDGE

We encourage you to listen to the full interview with Lee Bainbrige on the Scaling UP! H2O podcast. You'll gain deeper insights into Legionella control practices and regulatory approaches in the USA and the UK, learn about new technologies and challenges, and hear expert advice for water professionals.

Stay curious, keep an open mind, and always strive for excellence.

Tune in to the Scaling UP! H2O podcast on **Friday, June 28, 2024** available on scalinguph2o.com and your favorite podcast platforms.
