

Innovations in Sunflower Oil Wastewater Solutions

ON THE SCALING UP! H2O PODCAST

Catch the Re-Broadcast: Innovative Solutions for Oil Wastewater Treatment with Dr. Swati Sharma

Missed it the first time? Don't worry—Scaling UP! H2O is re-broadcasting one of our most compelling episodes featuring [Swati Sharma, Ph.D.](#) on **Friday, October 4, 2024**. If you're a water treatment professional or simply passionate about cutting-edge solutions, this episode is for you!

Join host Trace Blackmore as he engages with Dr. Sharma, an expert from [Water Engineering Inc. \(WEI\)](#), who unveils innovative strategies for tackling the challenge of sunflower oil wastewater. Dr. Sharma's groundbreaking research and practical advice offer a treasure trove of knowledge you won't want to miss.

What You'll Discover:

- **Dr. Sharma's Inspiring Journey:** Hear how Dr. Sharma's unique background and dedication have shaped her impactful career in water treatment. Her journey underscores the passion and commitment driving today's industry experts.
- **Sunflower Oil Wastewater Solutions:** Dive into Dr. Sharma's research on treating sunflower oil wastewater. Learn about the specific challenges and the best treatment methods available to address them.
- **Understanding Electrooxidation Processes:** Explore key electrooxidation techniques like electrocoagulation, electrooxidation, and electrochemical peroxidation. Discover how these methods can be applied to solve various wastewater treatment problems.
- **Advice for Future Researchers:** Gain valuable insights from Dr. Sharma on selecting research problems, understanding wastewater characteristics, and learning from setbacks to achieve success.

Scale UP! Your Wastewater Knowledge

Dr. Sharma's wisdom is clear: "You need to use different chemicals for different kinds of waste removal," and "It's not about the addition of chemicals, it's about understanding the characteristics of your wastewater."

Don't miss out on this opportunity to enhance your knowledge and expertise! Tune in on **October 4, 2024**, at scalinguph2o.com or your favorite podcast platform. This episode is your chance to gain valuable insights that could transform your approach to wastewater treatment.
